# RESEARCH AND DEVELOPMENT TAX CREDIT

**M**innesota enhanced its tax credit program in 2010 for companies that conduct research and development.

Under the revised measure, partnerships and S corporations are eligible for R&D tax credits, which will benefit small and medium-sized businesses. Previously, only C corporations could take the credit above a base amount. In addition, the percentage of the credit is increased from 5 percent to 10 percent of the first \$2 million in eligible expenses above a base amount. The credit remains 2.5 percent for eligible expenses above \$2 million.

Information on this tax credit is posted on the Minnesota Department of Revenue's website, [www.taxes.state.mn.us](http://www.taxes.state.mn.us).
